### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David B. Hardy on January 30, 2004.

The application has been amended as follows:

In claim 1, line 17, "insulating layer" has been changed to --passivation layer--;

Claims 18-28 have been canceled.

Art Unit: 2871

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: in the examiner's opinion, it would not have been obvious to replace the capacitor structure disclosed by Park et al. (U.S. 6,335,276) with the capacitor structure disclosed by Kim (U.S. 6,255,130). Furthermore, the prior art disclosure of Kim does not teach patterning the passivation layer, the active layer, and the insulating layer in a single manufacturing step.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Chung whose telephone number is (571) 272-2288. The examiner can normally be reached on Monday-Friday from 8:30 am to 5:00 pm.
